2 Agnew Street
Ainslie.
Canberra. N.T.
27/6/65

Dear Dorothy, I do apologise for
not offering you my congratulations
on your great honour. I have
only recently heard about it and
hastily repair my delay.
You have done so much for
the women scientists in Australia
and I do offer you my best wishes.
I do not seem to see people much

these days. In fact I haven't yet visited
the new B.M.R. But the palaeontological
section is in the old spot, so I go there
at least twice a week. I am
kept busy & am now doing a
supplement to the Can. Bull. Coll. Lys.
You will note my change of address.
I bought myself a small house which
I hope you will honour it one day.
Would you be good enough to have my
address changed in your records &
library.

Again, my sincere congratulations
Yours sincerely
Gene Cooper.
